Mildred learns that Emerison and Cherty are partners. Banker Hilliard, Seattle, refuses to lend Emerson \$160, 602. Cherry, who has arrived in Seattle, accepts a dinner invitation from Hilliard.

Cherry discovers that Emerson is to marry Mildred. Marsh causes annoying delays for Emerson's party. To-coma refuses Emerson a loan. Clyde suggests that Cherry can get the loan from Hillsen?

Emerson enrages Cherry by criticis-ing ber friendly relations with Hil-llard. Cherry sees Hilliard, who un-expectedly furnishes the money. "It's too much for one man," she declared.

"Oh, I'll sleep tomorrow." "Did you see-her?" questioned Cherry.

"Yes!" "She must be very proud of you," she said wistfully.

"I-I-don't think she understands what I am trying to do or what it means. Our talk was not very satisfactory.'

"She surely must have understood what Marsh is doing."

"I didn't tell her that." "Why not?"

"What good would it have done?" "Why"-Cherry seemed bewildered-"she could put a stop to it; she could use her influence with her father against Marsh. I expected to see your old crew back at work again. Oh, I wish I had her power!"

"She wouldn't take a hand under any circumstances-it wouldn't occur to her-and naturally I couldn't ask her." Boyd flushed uncomfortably. "Thanks to George's trap, there is no need." He went on to tell Cherry of the scene with Mr. Wayland and its stormy ending.

"They have used all their resources to down you," she said, "but luck is with you, and you mustn't let them succeed. Now is the time to show them what is in you. Go in and win her now against all of them."

"Pardon me," she said, "Will you tell me what that odd looking building is used for?" She pointed to the village church.

"That is the Greek church." "How interesting! Are there many

Greeks here?" "No. It is a relic of the Russian days. The natives worship there."

"Do you live here?" "Yes. In the log house vonder." "Indeed! I tried to find some one there, but-you were out, of course. You have it arranged very cozily, I see." Mildred's manner was faintly patronizing. She was vexed at the beauty and evident refinement of this woman whom she had thought to find so different.

"If you will go back I will show it to you from the inside, Miss Wayland." Cherry enjoyed her start at the name and the look of cold hostility that followed.

The instruction will be given in comparatively small groups of men, so each can get a large share of personal attention. In all courses, the work will be made as practical as possible, all of the unnecessary material being omitted. Salesmen, clerks, in fact all men who come in contact with the Spanisa speaking element will find the Spanish course particularly valuable. Students will be given a speaking knowledge of the language without undue time and attention being given to the smaller details of the grammar. In the business course, a great deal of latitude will be given so that each student can take up that part of the work he feels most in need of. The work can be adapted so that men with considerable bunness knowledge can find advanced work to suit them. On the other hand, boys and young men just starting in business life can get the elementary knowledge necessary to their progress. For those who are working in the shops or who expect to take up any line of engineering work. The cost of any of these classes is extremely low, just enough to pay the cost of the instruction. to physical and mental health.

A majority of all habitual users of alcohol would gladly quit drinking if they could ever get the poison out of their systems, and reach a condition in which they could live in comfort without it.

The Globe Three Day Treatment is safe, reliable and speedy. It strengthens every 'nerve' and organ of the mind and body driving out every vestige of alcoholic poison from the system, leaving it clean and healthy. We accomplish this without hypodermic injections, without the use of system wrecking drues, without a long and expensive residence in a sanitarium, and you will be detained but three days from your business.

CATARRH A SPECIFIC BLOOD IMPURITY

Catarrh is a deep-seated blood disease, one which no amount of local treatment will ever permanently cure. The beneficial effects of washes, sprays, inhalations, etc., are only temporary, and when left off the old condition returns, because the blood is infected with catarrhal matter and impurities. This impure condition of the circulation irritates and inflames the delicate mucous membranes and tissues and produces the well known symptoms of ringing noises in the head and ears, mucus in the throat, headaches, watery eyes, partial deafness, sore throat, general impairment of health, etc. This condition will remain, growing worse as long as the catarrhal matter is allowed to remain in the blood. Being a specific blood impurity, there is only one way to cure Catarrh, and that is to purify the blood. Nothing equals Is to feed your stock well if S. S. S. for this purpose.
